

Easy to use Payment Machines

We provide more payment options than any other operator, this is partially driven by our wide range of payment terminals. Effective payment systems are driven by choice and the ability to tailor your car park to the needs of your customers – by offering flexible options we can help you to improve convenience, streamline user experience and boost revenue across your site.

How better payments support your business

-  **Boost revenue**

-  **Greater accuracy**

-  **Greater convenience for visitors**

-  **More secure**

-  **More choice – boosting payment rates**

-  **Better space turnover**

-  **Improved reliability**

Option 1

This outdoor payment machine is just one of our options to support easy pay and display parking across your site. The 'Omnia+' is equipped with unattended contactless card payment devices, a coin recycler, a note acceptor, a receipt printer, and a high bright daylight viewable touch screen. This machine also houses an internal thermostat and heating system to maintain optimum operation temperatures in outdoor environments.

By using this pay on exit solution you can increase revenue due to extended dwell time and reduce complaints with an easy-to-use system. The VRM lookup increases payment accuracy making this an optimal solution for your customers.
